

Looky 6 HD

Handheld Video Magnifier

High-definition magnification with touchscreen

The Looky 6 HD handheld video magnifier combines incredible image quality and easy-to-use features all in a small compact design. With two 13 mega-pixel cameras and an HD touchscreen, the Looky 6 HD produces a crystal clear image at all magnification levels so you don't miss out on any details.

With a sleek and stylish design, the Looky 6 HD combines the familiarity of tactile buttons with a simple touchscreen interface. Use the tactile buttons for zooming in and out or simply pinch and zoom on the screen to increase or decrease magnification. You can also take a picture of what you are viewing and then place the device on a flat surface for a more comfortable viewing.

About the Looky 6 HD

Price: \$795.00

- 1080p full HD image resolution for reading and distance
- Anti-glare, matte touchscreen
- Magnification of 1.5x to 35x
- Close view and distance viewing
- Live panning - explore live, zoomed images without moving the device
- Connects to a TV for larger viewing
- Dual controls - high-contrast tactile buttons and touch screen
- Connects to a TV for larger viewing
- Continuous use up to 3 hours - user rechargeable battery
- 2-in-1 handle and stand - fold out to use like a traditional magnifier or close-and-tilt to use as a reading/writing stand

The Looky 6 HD offers 2 viewing modes for greater versatility. Open the reading stand to automatically switch into reading mode or close the the stand to switch into distance mode.

The folding handle allows the Looky 6HD to be used the same as a standard magnifying glass or can fold into a reading stand for a comfortable desktop reading experience.

5.5" HD screen offers a large viewing area, while the slim, lightweight design gives you the best features in one ultra-portable device. And when you're at home, connect the Looky 6 HD to a TV or monitor through HDMI to use it like a desktop video magnifier!
