

VP Rogue

Braille Embosser

Tractor-Fed or Cut-Sheet Embosser

The VP Max has gone ROGUE! Meet the new VP Rogue; the same great features as the VP Max but now twice as fast! The VP Rogue makes it fast and easy to create exceptional braille and high-resolution tactile graphics for your students! It's compact size and sound-absorbing case also makes it great for schools, offices or homes where space is limited and noise levels really matter.

High-Resolution Tactile Graphics

The VP Rogue offers high-resolution tactile graphics. With 8 different distinctive dot heights users can transform images into readable tactile graphics. The dot height is automatically adjusted based on the visual color of the image. The darker the color the higher the dot and the lighter the color the lower the dot making it easy for users of all skill levels to make custom tactile graphics.
